

Public Survey for Physical Education Standards Revision - January 2015

Background Information

Thank you for taking time to review the DRAFT of the Physical Education standards and provide the Arizona Department of Education with your feedback.

The development of this draft began in May 2014 under the guidance of the Arizona Department of Education. A statewide committee of physical education educators reviewed Arizona's current Physical Education Standards, other states' standards in this content area, and research and guidance documents. These documents were used to guide the development of this DRAFT.

This survey is designed to obtain the opinions and comments of educators, students, businesses, policy makers, and the public regarding the revision of the Physical Education Standards.

This survey asks for feedback in 4 major areas: respondent demographics; organization of the standards, content and rigor; feedback on specific standards and recommendations to the State Board; and resources needed to implement these standards.

At the close of this public review period, your responses will be reviewed by a state-wide committee of physical education instructors. This committee will edit this draft based on comments and submit the final document to the State Board of Education for adoption.
